## Professional Summary

Front End Developer with 1 year of experience, specialized in React, Redux, and Sass. I started as a Junior Full Stack Developer and later focused on building accessible, interactive, and pixel-perfect digital experiences. I also implement features, integrate APIs, manage application state, ensure responsiveness, and optimize performance.

## Skills

Languages: JavaScript, Python, Java, Bash

Frameworks: React, Node.js

Tools: GitHub, Figma

Databases: SQL, PostgreSQL, SQLite3

Other: Scrum, RESTful APIs, JWT, Tailwind Css
